# **ROLLER SHAD**

**The All-Terrain  
Eco-Friendly Lure**

**Whether you do saltwater or freshwater fishing, onshore or offshore, Roller Shad is the way to go!!**

**Available in 46 stunning colours, with different shades and chameleon effects, 5 different sizes and several weight options.**

**Easy to rig and easy to fish, delivers a lifelike swimming action at very slow retrieving speeds that attract more fish.**

**A range of bio-friendly jig heads, gives you the choice to fish, protecting the environment.**

**A must have lure in your tackle box!! Just try it!!**

Several catches of trophy fish from different species made by anglers, show us that we managed to develop an unique lure that is able to perform everywhere!

**Tech tips:**

Padle tail produces wide rolling & wobbling action, Very soft and strong body, Strong vibrations, Twin injection technology, natural stunning colours with transparencies & chameleons, scented, long casting, low speed retrieve, Ideal for bottom scraping and can be used also in vertical action

**Lifelike Colours**

A new colour technology allows super natural patterns, different shades and chameleonic effects. Roller Shad colours are outstanding, turning it into a super realistic soft bait. Shades a colour on direct light and shifts colour on back light

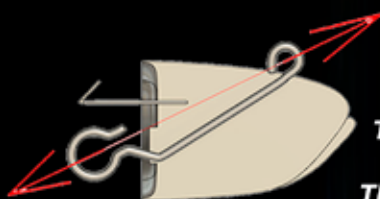

**Extra Soft Body**

Roller Shad is made with a new extra soft body formula, more flexible and more resistant, allowing a natural swimming action, with strong vibrations and high durability for several catches.

**Extra Strong Hook**

The Extra Wide Gap Hook was specially developed to Roller Shad, it's a 4x strength hook to support the biggest fish. The extra wide gap and the super sharp point provide an easy and safe hook up.

**Easy Rig System & Strong Easy Link**

Roller Shad it's easy to assemble due to the Easy Rig System. This consists of a coupling wire and a support pin fixed to the jig head that together fix perfectly the body and the jig head. The one piece hitch wire together with the extra strong wide gap hook, provides a Strong Link between the line and fish.

**Natural Swimming**

The body and paddle together with the jig heads, have been designed to produce a natural swimming action with the vibrations of a natural prey. The result it's a natural swimming action that attract more fish and produce more hook ups. Take a look on the Roller Shad action movie using the QR Code.

**Bio-Friendly Soft Plastic**

We care with environment, going green just makes sense! Our lures uses less than 20% of plastic and uses eco-friendly non-toxic plasticisers, BPA free, without phthalates, without bisphenol-A, without endocrine disruptors, without PBT's and without arsenic.

**Lead-Free Jig Heads**

A range of jig heads made with ZAMAK, a Lead-Free Zinc alloy, that lets you fish with a lower environment foot print. The ZAMAK gives also a different density to the jig head allowing slower presentations of the lure to the fish.

We are constantly working to find new bio-friendly solutions to our products and at same time to increase it's effectiveness.

# ROLLER SHAD 65

**NEW**

The new Roller Shad 65 is the smallest size added to the Roller Shad range. Specifically developed for small river fishing, lakes and light rock fishing, this compact lure is a game-changer for trout, perch and all LRF enthusiasts. Boasting the innovative GT-Bio product concept and cutting-edge colour technology, the Roller Shad 65 is a tiny temptation that fish simply cannot ignore. Its stunning colours, natural scent and unique vibrations make it irresistible even to the most cautious predator. A real big trophy catcher!

# ROLLER SHAD

## RIGGING TIPS

- 1 - Start with the lure body in a hand and the jig head in the other
- 2 - Place the jig head hook into the hole in the front of the body
- 3 - Put a drop of super glue between the body and the jig head
- 4 - Press the jig head against the body until it closes and sticks

- 5 - Pass the hook hole through the jig head hook to connect them
- 6 - Place the hook into position and confirm that is connected
- 7 - Pass the hook edge through the hole in the body
- 8 - Confirm that is in position and your lure is ready!

If you have difficulty sticking the jig head to the soft body, it's possible that the body has a bit of grease on it due to the soft body natural oils. Try to clean the soft body with a tissue with alcohol first and then put the super glue and stick it to the jig head. You will see it works!

# ROLLER SHAD 105

**NEW**

*The Roller Shad 105 is a versatile intermediate lure designed for both saltwater and freshwater fishing. Ideal for targeting predators like seabass, spotted bass, perch, black bass or zander, that feed on medium size baitfish. This bait was designed and crafted for a realistic action, offering a versatility across various medium-game scenarios, that make it a good choice for anglers seeking success when fish is feeding in smaller preys.*

# KAMALEO 125 SANDEEL

**NEW**

The Kamaleo Sandeel 125 is the smallest lure in the range and stands out as the ultimate lure for bass fishing. Its versatility shines whether used vertically or for bottom scraping, with its super realistic swimming action like a real sandeel, perfect to catch a lunker bass. With a patented design, this lure promises an exceptional fishing experience, making it a top choice for anglers targeting seabass in various conditions.

# FLASH BAIT

**Flash Bait it's a soft lure from GT-Bio that imitates a fish prey, the perfect lure for finness fishing.**

**Very flexible, smooth and resistant, animates in a natural way with tip touches, twitches and jerks.**

**With a 3D eye and a reflective belly presents an incomparable naturalness, being ideal for finness fishing types where a small touch will make Flash Bait vibrate naturally.**

- Produced with a non-phthalate, non-toxic polymer.
- Soft and resistant allows several captures with the same lure.
- 3d eyes increaser realism and strikes.
- Used with different rigging types and hooks.
- Natural fish flavour.
- Two Sizes, 90mm and 110mm
- Sold in blisters of 6 units.
